- 2009 **Valedictorian, University Laboratory School, Baton Rouge LA**

Research Experiences

- 2019 - 2021 **The Utility of Ophthalmic Consultation for Fungemia**, Department of Ophthalmology, Preceptor Albert Lin MD
- 2018 **Function of the Interphotoreceptor Matrix**, Department of Ophthalmology and VAMC, Preceptor Dr. Gonzalez-Fernandez
- 2016 **Therapeutic approaches to blindness in Usher Syndrome**, Lentz Lab (LSUHSC) Neuroscience Center of Excellence
- 2014-2015 **Biomarkers in Epilepsy**, Musto Lab (LSUHSC) Neuroscience Center of Excellence
- Summer 2012 **Visual Awareness in Primates; Psychophysics**, Maier Lab (Vanderbilt) VUSRP Fellowship
- 2011-2012 **Signal transduction and retinal degeneration in *Drosophila***, Shieh Lab (Vanderbilt) Neuroscience Undergraduate Research course

Presentations

Patrick C, Lin A. The Utility of Ophthalmic Consultation for Fungemia. UMMC Department of Ophthalmology Resident Research Day. June 19, 2020. Jackson MS.

Patrick C, Green J, Lin A. A Unique Case of Exudative Retinopathy. UMMC Department of Ophthalmology Resident Research Day. June 21, 2019. Jackson, MS.

Patrick C, Bazan N, Musto A. The Role of High Frequency Oscillations in Epileptogenesis. Presentation at NCE SUN Summer Research Program, LSUHSC. July 29, 2014 New Orleans, LA.

Patrick C, Cox M, Maier A. Illusions: The Psychophysical Investigation of Subjective Shapes. Presentation at VUSRP Fellowship Seminar, Vanderbilt University. August 3, 2012 Nashville, TN.
Patrick 2

Patrick C, Shieh B. Mutations in components of the signaling cascade pathway of *Drosophila melanogaster* and their impact on adult photoreceptor degeneration and larval behavior. Neuroscience 292B Final Presentation, Vanderbilt University. April 4, 2012 Nashville, TN.

Lectures

- 2021 **The Effect of Tube Location on Endothelial Cells in Patients with Ahmed Glaucoma Valve** – Zhang et al.
Journal Club, Department of Ophthalmology, UMMC
- 2020 **Ten Years and Beyond Longitudinal Change of B-Zone Parapapillary Atrophy** – Bak et al.
Journal Club, Department of Ophthalmology, UMMC
- 2020 **Randomized clinical trial comparing Femtosecond LASIK and Small-incision Lenticule Extraction** – Ang et al.
Journal Club, Department of Ophthalmology, UMMC
- 2020 **Retinoblastoma**, Retina and Pathology lecture.
Department of Ophthalmology, UMMC
- 2019 **Aflibercept for Radiation Maculopathy** – Murray et al
Journal Club, Department of Ophthalmology, UMMC
- 2019 **Ocular Toxoplasmosis and Toxocariasis**, Retina lecture
Department of Ophthalmology, UMMC
- 2019 **From Machine to Machine: An OCT-Trained Deep Learning Algorithm**
Medeiros et al.
Journal Club, Department of Ophthalmology, UMMC
- 2019 **Optic Nerve Pathology**, Pathology lecture
Department of Ophthalmology, UMMC
- 2019 **Advanced Glaucoma OCT Changes**, Lavinsky et al
Journal Club, Department of Ophthalmology, UMMC
- 2018 **Anterior Chamber and Trabecular Meshwork**, Pathology lecture
Department of Ophthalmology, UMMC

Professional Memberships, Board Certification

World College of Refractive Surgery and Visual Sciences, Fellow

American Board of Ophthalmology, Board Certified Diplomate

American Academy of Ophthalmology

American Society of Cataract and Refractive Surgery

About me

I met my wife Paige in medical school and we have been together ever since. We have been married since May 2021. She is a practicing pediatric anesthesiologist. We have a three year old golden retriever named Lucy and had our first child named Hardy in October of 2022. We love to exercise, enjoy the outdoors and travel, and can often be found frequenting the mountains or the beach. We live in Lakeview in New Orleans and are glad to call Louisiana home.
